PROFESSIONAL SUMMARY

Software Developer with **2+ years** of experience in application development. Skilled in mobile and web development, with hands-on experience building, maintaining, and improving software solutions.

EXPERIENCE

Software Developer

Rapidops Inc

Aug 2024—Mar 2026, Ahmedabad, India

- Developed and maintained cross-platform mobile applications using Flutter across multiple domains including CRM, research, e-commerce, and workflow automation.
- Improved performance by optimizing legacy code and refactoring 70% of the Flutter codebase to reduce boilerplate and enhance maintainability, scalability, and development efficiency.
- Managed Play Store releases, build generation, and deployment.

Software Developer Trainee

Rapidops Inc

Jan 2024—Jul 2024, Ahmedabad, India

- Built foundational skills in Flutter and cross-platform development by working on real-world Android and tablet applications, contributing to UI implementation and user interaction flows.
- Gained hands-on experience in Flutter, Node.js, and React.js, building full-stack understanding and collaborating within an agile team environment.

PROJECTS

Salesmate – Flutter CRM Application

- Developed and maintained a B2B SaaS CRM mobile application using Flutter, REST APIs, and modular architecture, supporting multiple business workflows.
- Built data management and workflow features for core CRM entities, including dynamic forms with backend-driven validation, detailed record views, and stage/status transitions for lifecycle tracking.
- Integrated customer communication features including Support Ticket Systems, Voice-to-Text, AI-Powered Text Generation, Deep Linking, Third-Party SDK Integrations, and various CRM workflow modules.

Workflow AI – Task Automation

- Developed a Flutter-based workflow automation application featuring a visual node editor and custom workflow execution engine.
- Integrated REST APIs, AI services (OpenAI/Gemini), local databases, JSON processing, and background services to support intelligent automation workflows.
- Developed automation modules for notification-based triggers, device actions, conditional logic, and real-time task execution.

QuickServe – Service Marketplace

- Developed a full-stack platform using React.js and Node.js to connect service providers with customers, enabling seamless service discovery and booking flows.
- Designed and managed PostgreSQL database with optimized schemas, and implemented role-based access control along with Socket.IO for secure, real-time interactions.

EDUCATION

Bachelor of Technology in Computer Engineering

Vishwakarma Government Engineering College – Ahmedabad, India

SKILLS

Languages: Python, Dart, JavaScript

Tools: Git, Linux, Postman, Supabase, Figma, Google Play Console

Frontend: Flutter, React **Backend:** FastAPI, Node.js **Databases:** PostgreSQL, SQLite, Firebase
